👤 Male

### 👤 PROFILE

I'm a 21 year old qualified self-taught web developer with three years of experience. I love solving problems and doing a lot of research. In school am a web developer lead in the Google developer students club; my work is to guide and help others who have problems in web development. I am open to learn anything new and resilient to any changes in the workspace. Looking forward to working with you and using my skills to improve my place of work. Main objective is to learn what is done in the real world and expose myself to get experience.

### 🧠 SKILLS

HTML (Structure)

CSS (Styling)

Javascript (Function)

React Js (Library)

Bootstrap (Framework)

### 🔑 INTERESTS

#### Artificial intelligence

I am usually up-to date with current trends like GEMINI and CHAT-GPT

#### Robotics

I like following up with Tesla's bot like Optimus

#### Reading

I love reading a lot of books to sharpen my critical thinking and analytical skills

#### Content Creation

I have my personal newsletter

#### Writing

I love writing and now I like to journal everyday

#### Video Editing

As a fun of youtube videos, I love trying to edit videos like they do using tools like Capcut and Filmora

### 📁 PROJECTS

#### Quote Generator

Get Encouraged

01/2024 – 01/2024

It also has a functionality of posting the quotes directly to your twitter account. The project helped me understand how to use API's and manage them to the desired outcomes.

#### NEWS APP

Get News Updates

01/2024 – 01/2024

This project enables you to get latest news on topics such as science, business, technology, health and entertainment. This helped me solidify my skills on React Js on understanding concepts like hooks, props, states and using API's.
